Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2614

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-11 are now rejected under 35 U.S.C. 102(b) as being anticipated by Iwamura (cited and provided by applicant).

Addressing claim 9 first, Iwamura positions an antenna (e.g. col. 2 lines 13-16) of a television system capable of receiving digital TV signals (e.g. col. 2 line 65; Fig. 1). An initial position is selected (at least by default upon installation), and the signal error rate (indicative of signal strength) of each one of the plurality is measured and of received digital signals is displayed (Fig. 7), wherein a final positions per respective is selected based on the measured data (col. 4 line 56 – col. 5 line 13; col. 5 line 50 – col. 6 line 18).

As for claim 10, the selection of the optimal antenna position is repeated until the final position is determined, based on the signal strength (determined by the minimal error rate; noting again col. 5 lines 1-13).

As for claim 11, the received signal is concurrently audible during antenna alignment and real-time display of signal strength for a selected channel (speaker 12).

Regarding claim 4, the incoming television signal includes component audio and video signals (separated by element 7), and the video portion is displayed on CRT 10. The signal strength is displayed while the received A/V components of a selected channel are active, under the selectable control of the user by interface 14 through CPU 13..

As for claim 5, Fig. 7 depicts signal strength data presented in grid form.

Art Unit: 2614

As for claim 6, the signal selectively displayed enables display of the television signals whether it is analog or digital (col. 2 line 65; col. 6 lines 25-29).

Considering claim 7, the CRT displays updated signal strength measurements in real time (as the installer carries out the alignment process to completion).

As for claim 8, channel data is stored when alignment is completed (col. 6 lines 43-55).

2. Claims 1-3 remain allowable over the prior art.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
